

Highly motivated Business Analyst and BI Developer, with experience translating complex data into actionable insights. Skilled in SQL, BI tools, and process optimization, with a proven ability to support decision-making and drive business impact. Strong collaborator with high emotional intelligence, adaptable to diverse teams and environments, thriving on challenges and delivering results under pressure.

PROFESSIONAL EXPERIENCE

2021 – Present: Teva Pharmaceuticals, Business Analyst.

- Delivered actionable business insights for the Global Internal Audit department by analyzing financial, IT, and compliance data with BI tools and SQL, driving KPI improvements in collaboration with cross-functional teams.
- Designed, developed, and managed BI dashboards and managerial tools end-to-end (data modeling, SQL, visualization), providing executives with accurate audit and compliance reporting.
- Led the implementation of a new audit management information system, overseeing system design, data migration, validation, and ongoing administration.
- Conducted comprehensive risk analyses across business units, identifying vulnerabilities and supporting audit and compliance strategies.
- Facilitated organizational adoption by delivering training sessions on the audit system and BI dashboards, while providing continuous technical support to stakeholders.

2016 – 2017: IDF: Special Intelligence Unit “Sayeret Matkal”, Purchasing Specialist.

- Led procurement operations and a team, optimizing workflows and streamlining cross-functional processes to support long-term projects.
- Managed multi-million-dollar budgets and financial performance by drafting and analyzing contracts and negotiating with top-tier vendors.
- Developed and maintained procurement databases, leveraging data insights to drive strategic decisions and improve processes.
